

Press Release

June 15, 2022

GeoResonance is pleased to announce a new cooperation agreement with Maot International Trust LLC, to create a practical blueprint for collateralisation of recoverable in-ground mineral assets, which can be applied in the developing countries in Africa and Asia to finance their national strategic socio-economic projects.

Maot International Trust LLC (www.maottrust.com) entered this agreement with expertise in funding, trade operations of banking instruments, issuance of banking instruments, and international banking strategies. Maot International Trust has pioneered its Six Sigma Investment Strategy to drastically improve deployment of capital to build strong asset and financial ecosystems.

We look forward to continuing to build on our constructive cooperation with Maot International Trust in the interest of GeoResonance clients.
